# Memorandum

TO : Director of Security  
Central Intelligence Agency

DATE: November 14, 1969

FROM : *CHR*  
Charles H. Rogovin, Administrator  
Law Enforcement Assistance Administration

SUBJECT: "Where's What"

The Law Enforcement Assistance Administration has broad responsibility in assisting state and local law enforcement units to develop or improve their capability to investigate organized criminal activity. An important element of this program is the increased understanding of what intelligence data is available from public records and agencies. In this regard it would be beneficial to our endeavor if we secured a copy of the publication "Where's What" for use as a training guide.
